

Lawn Community Church

Note – Susan Saunders, Elder and Member of the Leadership Team will act as Church Minister in all policies, procedures, and guidelines, relating to Safeguarding.

BEST PRACTICE GUIDELINES

Lawn Community Church is in an amazing position in society, with the opportunity to minister to individuals from the whole community, from the very young to the very old. These best practice guidelines are in place to help those working on behalf of the church to do it well, prioritising the safety and well-being of those they are working with. Whilst these guidelines are divided into adults and children, some aspects of good practice will overlap.

Consent forms can be found on the Baptist Union Website.

1 – WORKING WITH CHILDREN

1.1 Ratios

When working with children the following recommended minimum ratios of workers to children apply:

Age range	Recommended minimum ratio for INDOOR activities	Recommended minimum ratio for OUTDOOR activities
0 – 2 years	1:3 (minimum 2)	1:3 (minimum 2)
3 years	1:4 (minimum 2)	1:4 (minimum 2)
4 – 7 years	1:8 (minimum 2)	1:6 (minimum 2)
8 – 12 years	2 adults for up to 20 children (preferably one of each gender) with an extra adult for every 10 additional children	2 adults for up to 15 children (preferably one of each gender) with an extra adult for every 8 additional children
13 years and over	2 adults for up to 20 children (preferably one of each gender) with an extra adult for every 10 additional children	2 adults for up to 20 children (preferably one of each gender) with an extra adult for every 10 additional children

This does not take into account special circumstances such as behavioural issues, developmental issues, disability and so on, which may mean an increase to the recommended ratios. In calculating the ratios of workers to children, young leaders who are under the age of 18 should be counted as one of the children, not one of the workers.

1.2 Children with Special Needs

Children and young people who have a disability can be at greater risk of abuse. They will often require more help with personal care, such as washing, dressing, toileting, feeding, mobility, etc. Some children may have limited understanding and behave in a non-age-appropriate way. It is good practice to speak with the parents/carers of children/young people with special needs and find out from them how best to assist the child or young person.

1.3 Visiting Children or Young People at Home

It is unlikely that workers will need to make pastoral visits to children and their families at home on behalf of the church. If a situation occurs where it is needed then it should be done in pairs, and with the prior agreement of the Minister.

3.1.4 Children with no adult supervision

When children turn up to and want to join in with church activities without the knowledge of their parents/carers, workers will:

- Welcome the child and try to establish their name, age, address and telephone number.
- Record their visit in a register.
- Ask the child if a parent/carer is aware of where they are. Where possible, phone and make contact.
- Without interrogating the child, find out as soon as possible whether they have any specific needs (eg. medication) so that you can respond appropriately in an emergency.
- Give the child a consent form and explain it needs to be filled in and brought back next time.

1.5 Mentoring

If a worker is working with a young person as part of the recognised church mentoring programme:

- The parents of all young people involved in mentoring are required to sign a letter to say they are aware that the mentoring is happening and who it is with.
- Mentoring meetings should only be held in agreed places, and should be in view of other people.
- A mentoring meeting should have an agreed start and end time and someone should be aware that a meeting is taking place and where it is being held.
- A basic record should be kept of dates of significant meetings and any text messages or emails.
- Appropriate boundaries should be put in place in regard to times and demand, ie not phoning or texting late at night, etc.
- A written record should be kept of issues/decisions discussed at meetings.

1.6 Peer Group Activities for Young People

All youth activities will be overseen by named adults who have been selected in accordance with safer recruitment procedures. It is accepted that groups aged 16+ may benefit from being led and run by peers. In this situation, adult leaders will contribute to programme planning and reviews and will always be present to oversee any peer-led activities taking place.

1.7 Physical Contact

- Keep everything public. A hug within a group context is very different from one behind closed doors.
- Touch should be related to the child's needs, not the worker's.
- Touch should be age-appropriate and generally initiated by the child rather than the worker.
- Workers should avoid any physical activity that is, or may be thought to be, sexually stimulating to the adult or the child.
- Children are entitled to privacy to ensure their personal dignity.
- Children have the right to decide how much physical contact they have with others, except in exceptional circumstances such as when they need medical attention.

- When giving first aid (or applying sun cream, etc), workers should encourage the child to do what they can manage themselves, but consider the child's best interests and give appropriate help where necessary.
- Team members should monitor one another in the area of physical contact. They should help each other by constructively challenging anything which could be misunderstood or misconstrued.

1.8 Electronic Communications - Cyber Safety

Modern Technologies and Safe Communication

A worker's role description will include an acknowledgement and approval of technologies such as email, social networking and mobile phone communications as a legitimate means of communicating with young people. It should also include the expectations of the church in relation to their use. On the general consent form, parents/carers sign to agree that the young person can receive such communications.

Young people also need to be aware of the protocols that workers follow in relation to electronic communications. It is important to remember that as well as the parent/carer, young people have a right to decide whether they want a worker to have their contact details and should not be pressurised otherwise.

It is not appropriate to use these communication methods with children aged 11 years and younger. For more information on cyber safety, please refer to the Baptist Union of Great Britain *Cyber Safety Guide*, which can be found on their website.

Email

Email should be limited to sharing generic information, for example, to remind young people about meetings. If email is being used, workers will ensure that they are accountable by copying each message to a designated email address. It is important workers use clear and unambiguous language to reduce the risk of misinterpretation, for example, avoiding inappropriate terms such as 'love' when ending an email.

Communicating using Instant Messaging (eg. Snapchat, Whatsapp, Instagram)

Instant messaging should be kept to an absolute minimum. Workers should save significant conversations and keep a log stating with whom and when they communicated.

Mobile Phones

Workers need to take care in using mobile phones to communicate with young people:

- Mobile phone use should primarily be for the purposes of information sharing.
- Workers should keep a log of significant conversations/texts.
- Any texts or conversations that raise concerns should be passed on to the worker's supervisor.
- Workers should use clear language and should not use abbreviations like 'lol' which could mean 'laugh out loud' or 'lots of love'.
- Paid workers will be issued with a mobile phone under a contract that provides itemised billing.
- Workers should not take photos of children, young people or adults at risk unless permission is sought in advance and should not store such photos on personal phones.

Social Networking

- Workers should have a site that is used solely for children's / youth work communications and is totally separate from their own personal site. This is to ensure that all communication with children and young people is kept within public domains.
- Workers should not send private messages to children on social networks. Workers should ensure that all communications are transparent and open to scrutiny.
- Workers should not accept 'friend' or 'following' requests from children on their personal site, nor seek to be 'friends' or a 'follower' of any child known to them in a church context.

Taking Videos and Photographs of Children

Since the introduction of the Data Protection Act in 1998, churches must be very careful if they use still or moving images of clearly identifiable people. There are several issues to be aware of:

- Permission must be obtained, via the consent form, of all children who will appear in a photograph or video before the photograph is taken or footage recorded.
- It must be made clear why that person's image is being used, what you will be using it for, and who might want to look at the pictures.
- If images are being taken at an event attended by large crowds, such as a sports event, this is regarded as a public area and permission from a crowd is not necessary.
- Many uses of photographs are not covered by the Data Protection Act 1998, including all photographs and video recordings made for personal use, such as a parent/carer taking photographs at school sports days or videoing a church nativity play.
- Children and young people under the age of 18 should not be identified by surname or other personal details, including email, postal address or telephone number.
- When using photographs of children and young people, it is preferable to use group pictures.

2 WORKING WITH ADULTS AT RISK

2.1 Premises

The church building will be made as accessible as possible to all people. Any restrictions to access, visibility, audibility, toilet facilities, lighting or heating will be addressed wherever possible, and where necessary, aids and adaptations put in place.

2.2 Language

Every effort will be taken to use appropriate language and suitable vocabulary, enabling the greatest level of inclusivity and accessibility. We will be mindful of the language used within worship and the language used to describe people (such as derogatory words focusing on aspects of someone's disability, race or sexuality rather than the person themselves).

2.3 Worship

In all worship services, we will consider the varied requirements of our congregation and try to be as inclusive as possible, by:

- Providing some copies of large print type for all printed materials
- Speakers always facing the congregation and not covering their mouths when talking, enabling those who rely on lip-reading
- Describing what is being presented on a screen for those who cannot see it clearly
- Using inclusive language

- Using a variety of liturgy and resources to cater for different levels of understanding
- Using a microphone during times of open prayer so that all can hear
- Considering holding a service which specifically caters for certain groups of adults at risk, such as those with learning disabilities, the deaf or the visually impaired.

2.4 Insurance

We will take reasonable steps to safeguard adults at risk and will follow any specific safeguarding requirements as laid out by our insurance company.

2.5 Financial integrity

Arrangements are in place for dealing with money, financial transactions and gifts, as outlined below:

- Those who work with adults at risk may become involved in some aspects of personal finance - collecting pensions or benefits, shopping or banking, etc. If handling money for someone else, always obtain receipts or other evidence of what has been done.
- Workers should not seek personal financial gain from their position beyond any salary or recognised allowances or expenses.
- Workers should not be influenced by offers of money.
- Any gifts received should be reported to the church trustees, who should decide whether or not the gift can be accepted.
- Any money received by the church should be handled by two unrelated church workers.
- Care should be taken not to canvass for church donations from those adults who may be at risk, such as the recently bereaved.
- Workers should ensure that church and personal finances are kept apart to avoid any conflict of interest.
- If someone alters their will in favour of an individual known to them because of their church work or pastoral relationship, it should be reported to the trustees. Workers should not act as Executors for someone they know through their work or pastoral role, as this may lead to a conflict of interests.
- Expert legal advice should be sought on matters such as Power of Attorney and Appointeeship to ensure that the situation is clearly understood and is the most appropriate course of action for the adult at risk.

2.6 Photographs

Workers should make sure that they have the person's permission to take a picture, and that the subject is happy with the intended use of the pictures. When taking group pictures, workers should remember to get permission from everyone who will be photographed.

2.7 Computers

The use of any church computers by any child or adult at risk will be supervised by a worker at all times. [

2.8 Record keeping

It is good practice to record pastoral visits or meetings, noting the date, time, location, subject and any actions which are to be taken. The record of these meetings should stick to facts and try to avoid opinion. Any records of safeguarding allegations, concerns or disclosures should be passed on to the DPS and stored in a safe and secure manner for at least 75 years.

2.9 Pastoral Relationships

All those involved in pastoral ministry should work in a way that follows clearly defined procedures, which set out the boundaries to protect those carrying out the pastoral ministry as well as those receiving it:

- Workers should be aware of the power imbalance within pastoral relationships and the potential for abuse of trust.
- Behaviour that suggests favouritism or gives the impression of a special relationship, should be avoided.
- Workers should be aware of the dangers of dependency within a pastoral relationship.
- Workers should never take advantage of their role and engage in sexual activity with someone with whom they have a pastoral relationship.
- All people receiving pastoral ministry should be treated with respect and should be encouraged to make their own decisions about any actions or outcomes.
- Workers should not pastorally minister to anyone whilst under the influence of alcohol or drugs.
- Workers need to recognise the limits of their own abilities and competencies, and get further help when working with situations outside of their expertise or role.

3 HEALTH AND SAFETY - Safe Practice and Safe Premises

3.1 Consent forms

It is essential that we have important information about all children and young people involved in any activities at the church, which is recorded on our consent forms. The first week someone attends workers must record their name, medical emergency information and a contact name and number. Then they must bring their completed form back with them. Similar details will be gathered for adults at risk.

3.2 Health and Safety

All activities for children, young people and adults at risk will comply with the church's current health and safety policy with particular attention paid to Fire Action, First Aid, PAT testing, Health and Safety and Kitchen and Food Hygiene.

3.3 Fire

It is the responsibility of all group leaders/responsible persons within the building to ensure the safety of themselves and those who are in their care. In addition, it is a legal requirement that all group leaders/responsible persons are familiar with the emergency procedures in the event of a fire.

3.4 First Aid

All church groups will ensure that they consider if they need trained first aiders on their regular team as part of their risk assessment.

There is a first aid kit held in the Community Centre Office as well as an incident reporting book, which must be completed in the event of any accidents, injuries or incidents.

3.5 Food Hygiene

The Food Safety (General Food Hygiene) Regulations 1995 state that anyone who handles food or whose actions could affect its safety must comply with the regulations. All church groups will ensure that they consider food safety (preparation, handling and storage, disposal of waste, etc.) as part of their risk assessment.

3.6 Risk Assessment

Before undertaking any activity with children or adults at risk, the leader will ensure that a risk assessment is carried out. It is advisable to appoint someone specifically for this task.

3.7 Insurance

Residential activity organisers will check that there is adequate insurance cover for any activities planned. If the trip is at a centre it is also important to establish that there is appropriate public liability insurance in place.

3.8 Transport

These guidelines apply to all drivers involved in the transportation of children, young people and adults at risk on behalf of the church. They do not apply to private arrangements, for example, transport arrangements made between friends.

- Only those who have gone through the church safer recruitment procedures for workers will transport children and adults at risk (within the DBS eligibility criteria).
- All drivers will have read the church's Safeguarding Policy and agree to abide by it.
- Drivers will be aged 21 or over and have held a full driving licence for at least two years.
- Drivers must ensure that they have adequate insurance cover and that the vehicle being used is road worthy.
- All hired minibuses will have a small bus permit, the necessary insurance and a driver with a valid driving licence that entitles them to drive a minibus.

Our practice specifically for transporting children is as follows:

- Parental consent will be given for all journeys.
- All children and young people should be returned to an agreed drop off point. At collection or drop off points, children should never be left on their own; make sure they are collected by an appropriate adult.
- At least two workers should be present when transporting children as part of a church role.

3.9 Outings and Overnight Events involving Children

There are some specific considerations which need to be made for outings and overnight events involving children:

- A risk assessment must be carried out beforehand.
- Parents will be informed in writing of all the arrangements.
- Consent forms will be obtained for the specific activities involved.
- There will be workers with first aid and food hygiene certificates with the group.

Sleeping Arrangements

Sleeping arrangements for overnight events will be carefully considered. It may be acceptable for workers to share sleeping accommodation with children/young people in a large dormitory or on an activity such as youth hostelling, where it is customary practice and there is more than one worker per room. Workers will

not share sleeping accommodation with fewer than three children. Arrangements will be age-appropriate, provide security for the child/young person and be safe for everyone involved. The event leader will ensure that parents understand what the arrangements will be and are happy with them.

Adventurous Activities

No child will participate in adventurous activities without the written consent of the parent /carer. The activity leader will ensure that the staff engaged in such activities are properly trained and qualified and that the correct ratio of staff to children is met. At an activity centre or for an organisation whose own staff undertake such activities, if the activities come within the scope of the Adventure Activities Licensing Regulations 1996, the activity leader needs to ensure that the premises are licensed.

Fire Safety

The event leader will have a fire safety procedure in place, which will include the following:

- Everyone will be warned of the danger of fire. If the overnight event is in a building, then everyone must be made aware of the fire exits. A fire drill will be practised on the first day.
- When using a building as a residential facility, ensure that the fire alarm is audible throughout the accommodation and that all signs and exits are clearly visible. The building will also need to comply with fire regulations.
- In the case of an emergency, ensure measures are in place to alert children and young people with disabilities (e.g. a child who is hard of hearing).

Safety

It is the responsibility of the workers to always know the whereabouts of every child/young person participating in an overnight event, and this may include monitoring access on and off the site. General safety rules will be applied as appropriate (e.g. no running around tents due to the risk of injury from tripping over guy lines).

Swimming Trips

There will be an increased adult to child ratio for swimming trips. Prior to the trip, workers will establish the swimming ability of the children attending and obtain specific consent. Workers should never change in front of the children.

3.10 Outings and Overnight Events involving Adults at Risk

As with outings and events for children, there are additional considerations for a group taking adults with additional needs, such as learning difficulties or mental health needs, on outings or overnight events:

- A risk assessment must be carried out beforehand
- Planning for the trip should take into account specific medical, physical and support needs of each group member, bearing in mind that there may be people in the group who have individual care needs that will have to be met (including personal care)
- Adults at risk should be included in the planning of trips and events
- Consideration should be given to the suitability and accessibility of the venue and accommodation, travel time and mode of transport, and the affordability of the event
- Adults at risk should be given all the information about the trip beforehand so that they know where they are going, how long it will take to get there and what type of activities they will be taking part in.

- There should be a minimum of two leaders with each group; the individual needs of those attending may determine the additional number of people required.

Sleeping Arrangements

Consideration should be given to the individual needs of those staying overnight. If there is a need for personal care or additional support during the night, it would be better that the person's usual caregiver also attends the event and therefore shares a room with them.

Personal Care

It is not appropriate for church workers to perform personal care for adults at risk unless this is their usual task (ie if they have come along to help generally, but also have a caring role for a member of the group, they can provide personal care for that person).

Activities

Leaders should consider the mobility needs of the group when deciding on activities or events. For example, if members of the group have difficulty walking, then including a walking tour around a town may be inaccessible to some who are attending. If you have members of the group who use wheelchairs then consideration needs to be given as to whether you have sufficient workers to support those who may need pushing.

Safety

It is the responsibility of the workers to always know the whereabouts of every person in the group; this may include monitoring access on and off the site.

General safety rules will be applied as appropriate and advice sought from the event organiser / venue about the fire evacuation procedures. A copy of the event / venue risk assessment should be included with the group leader's risk assessment.

Consent and Medical Information

It is important to recognise that adults at risk are mostly able to give consent for their own involvement in activities, inclusion in photographs and medical treatment. However, in some situations the question of capacity may arise. The guidelines clearly state that an adult at risk should have a say in their care and any arrangements made for them, however, there may be occasions when you need to involve others in decision making. In these situations, seek advice from the DPS with regard to who should be involved. A medical consent form should be completed by each member of the group and held by the leader. This will include any health concerns, emergency contact information and contact details for their GP. This will allow emergency medical personnel to have access to information should the need arise.

Holding and Dispensing of Medication

Church workers should never agree to hold or dispense medication for those on an event. If someone is unable to manage their own medication then consideration should be given as to whether their usual carer could attend with them or whether they will not be able to attend the event.
